

■ USA Hockey SafeSport Training Guide

For Players with a Date of Birth (DOB) of 2009 or Earlier

All players born in 2009 or earlier must complete SafeSport training before they can be added to a team roster in USA Hockey. This training is free and required every season.

Step 1: Log in to Your USA Hockey Account

- Go to www.USAHockey.com.
- Click "Login" at the top right.
- Sign in using the same email address you used when registering for USA Hockey this season.
- If you've never logged in before, click "Create Account."

Step 2: Access the SafeSport Course

- Once logged in, go to your Member Dashboard.
- Click "SafeSport" in the left-hand menu (or scroll down until you see the SafeSport section).
- Select "Access SafeSport Training." This will take you to the U.S. Center for SafeSport website in a new window.

Step 3: Log in (or Create an Account) on the SafeSport Site

- If you've taken SafeSport before, log in using your existing SafeSport credentials.
- If you're new to SafeSport: click "Register." When asked for your organization, choose "USA Hockey." Complete the registration fields.

Step 4: Complete the Correct Course

- If this is your first time: take the "SafeSport Core Training."
- If you've done it before: take the Refresher Course (Refresher 1, 2, or 3) — whichever one is next in your sequence.
- The course takes about 60 minutes to complete and must be done in one sitting.

Step 5: Confirm Completion

- When finished, you'll receive a completion certificate via email.
- Your training status will automatically update in your USA Hockey account within 24–48 hours.
- You can also log back into your USA Hockey account to confirm your SafeSport shows as "Current."

Renewal Info

- You can renew your SafeSport once it is within 30 days of expiration.
- You'll need to re-take a refresher course every year to stay eligible.

Helpful Tips

- Use the same email address across USA Hockey and SafeSport — that's how your completion links correctly.
- If you're under 18, SafeSport will automatically assign the Youth Athlete Training version (shorter course).
- If you get stuck, contact the USA Hockey Member Services Department at memberservices@usahockey.org.

Stay Safe. Play Hard. Respect the Game.
