All Voting Positions are currently filled!

This has not been the case in the past, so we want to keep this momentum going and thank you for your support.

RYHA is growing and with growth comes the need for more opportunities to divide and conquer. We will be adding supporting roles in the future with coordinator positions.

Communication is Key – If you feel there are areas that seem to have gaps or could be improved, please communicate with your board members, remember this is a volunteer organization and there are over 400 kids in our association now!

Game scheduling is done through a scheduling app. We block home games for them to schedule around. Each team will be allocated the same amount of game times at SR and RAC. More games at RAC have been scheduled but one team might have more at SR than others. This is out of our control.

The game scheduling process will be done by the end of October.

Once practice schedules are posted to team calendars, any movement of ice is done by the team. The board does not adjust any ice once it is allocated.

Bantams are the only teams that can start a practice after 9:15PM. This will be spread out amongst the 4 teams evenly but once games and tournaments start, team selection becomes limited.

Teams will have practices this year at the RAC, SR, and possibly a few hours at Anoka.

- Do not call the coach

- Do not call the level director

- Please adhere to the 24-hour rule

No abusive or confrontational behavior will be tolerated

ZERO TOLERANCE POLICY

Misc - Dirty / Cheapshots will not be tolerated

Tryouts are to compete and play hard, we will not tolerate any cheap or intentional dirty play by any player.

If your player injures another player we will review the play with the Referee/Bench Coaches and Evaluators to determine if that player should be removed from the tryout for that day. If the injured player is unable to play or can't finish tryouts the player that caused the injury will also miss the same time. This is only if it was an intent-to-injure situation.

We hope this is not an issue, but we want to ensure you are aware of how this would be handled.

CONCLUSION

Tryouts can be stressful we want your players to be relaxed, ready to play and compete, but understand each child is different and as a parent you know your child best, please encourage them and be supportive throughout the process.

Hockey is only a game! We all want this to go as smooth as possible.

THANK YOU!

Lots of lifetime friendships are formed during these years and we ask that you represent Rogers in a positive manner at all times, but especially when we are visiting other cities for games and tournaments.

Have fun play hard and let's make sure the memories that are going to be talked about 10 years from now are good ones about the hockey team and the kids and not something a parent or coach did.

Make Good Decisions!

Enjoy the ride - It goes fast so hang on and be proud of your child and your team!

Let's have a great season!
