

Evansville Youth Hockey Association Coach Stipend Policy

- All Thunder Travel coaches will receive the coaching stipend described below for their age group.
- Teams will not vary from the amounts set for their age group
- The EYHA differentiates between parent and non-parent coaches because parent coaches would already be at the rink for practice and traveling to away games with their child until they reach high school.
- Thunder coaches are prohibited from earning any money above their set stipend from their Thunder team.
 - This includes charging any extra fees for off-ice training or other services provided to the team
 - Thunder coaches are allowed to perform private lessons or training for money on their own time if the lessons or training are not a team activity and players can choose to attend these lessons on an individual basis.
 - Coaches are permitted to waive their stipend if they so choose.

Team	Stipend*
High School Varsity	\$10,000
