

Name: Cam Wright

Board Position: Squirt Commissioner

Why do you wish to become a CCHA Board Member?

I want to be the Squirt Hockey Commissioner because hockey has always been a big part of my life and I care deeply about our local hockey community. I enjoy working with kids at this age level and helping create a positive, structured, and fun environment where they can learn and compete. This stage is where players really start building their skills, confidence, and love for the game, and I want to help guide that experience in the right direction.

My goal would be to give every player the best chance to succeed and grow. I believe in strong development, clear communication, and keeping the game fun while still being competitive. I'd be proud to support our coaches, families, and players and help make the program the best it can be. Let's Go CCHA!!

Please describe any previous involvement in CCHA (volunteer, manager, coach, leadership, etc)

Having two boys in the association i love being involved. Volunteering during tryouts has always been something I look forward to each season. I have also Volunteered during the brick city tournament running the clock and the welcome desk.

Describe your hockey background experience.

I was a 4 year varsity letterman @ Mound Westonka. I also played club hockey @ Ferris State my freshman year.

Describe other relevant experience in/contributions to other youth programs or community involvement.

I've been coaching with the Chanhassen Youth Baseball Association for the past four years. Right now I'm the 9AA (White) coach for the Chanhassen Storm and also coach a Minor League coach-pitch team. Outside of sports, I've served on the Victoria Parks and Recreation Board and currently sit on the fundraiser committee for the Crime Prevention Foundation golf tournament, which raises money for local police departments and their education programs.

What is your viewpoint regarding youth hockey? The CCHA Experience?

Youth hockey is a big part of growing up in Minnesota and a real milestone for a lot of young athletes. It's something special that not many places in the country can match. Our experience with CCHA has been awesome, we've been lucky to have great coaches, team managers, and families around us. The Mite 3 and 3.5 levels bring real value for kids at that age, helping build hockey IQ and confidence early on. At the same time, we should keep evolving as an association, staying competitive, keeping the game fun, and making player development a top priority at

every level. We've got strong resources in our hockey community, and continuing to use them well will help both the association and the kids succeed.
