

My name is Justin Gross, and I've been involved with BYHA for the past five years as a parent and the past three years also as a coach on both the boys and girls sides of the program. I currently have two children playing at the Squirt and 8U levels, and another eager to join as a Termite next season. Being involved across both sides of the association has given me a great perspective on the organization and the opportunities it provides for both boys & girls.

Professionally, I work as a Project Controls leader specializing in planning, scheduling, budgeting, and process improvement, which I believe translates well to supporting effective program operations and organizational decision-making needed for an association to run smoothly.

My goal as a board member is to help the program grow while supporting a positive, well-run environment that develops players' hockey skills, builds teamwork and character, and fosters a lifelong love of hockey at all levels.

Thanks for your consideration.
