

Frozen Basin 2026

Skill Competition Events and Rules

Free entry for each team in the tournament

Relay Race

Each team will consist of **4 skaters** and all teams in each division will have a team of skaters on the ice. The ice track will be marked with cones over the ice. The 1st skater for each team will begin at the marked starting line. In a relay race fashion, they will carry a hockey stick around the track one time. When they complete their lap, they will hand off the stick to the 2nd skater in their team to do another lap. This will continue until all 4 skaters of one team have each done one lap. The team that makes it back to the finish line on the 4th lap first will be the champion team of the relay race.

Shoot out

Each team will nominate one shooter and one goalie. The shooter of the 1st team will get **3 shots** against the goalies of the other teams. The shooter will get **one** point for each goal made. The goalie will get **one** point for each goal prevented. In the case of a tie between shooters, the shooters will go to a sudden death shootout with the best goalie (shooters and goalies are not allowed to be from the same team-in which case the tournament will use the second-place goalie). In case of a tie of goalies, the top shooter will shoot on each goalie 3 shots (as before goalies and shooters will be from different teams).

14u & 12u Speedy Puck Challenge *new event!

Each team will nominate one shooter to shoot a puck the hardest they can. Shots will be clocked with a radar gun in MPH. Players will get 3 shots and the fastest shot will be recorded. The player with the fastest puck will win.

10u only* Target Shooter Challenge *new event!

Each team will nominate one player to shoot at specific targets. Each target hit will be with a certain amount of points. The player with the highest points will win the event.
