 - Minor, Major, Pony:

Division	Game Length	Run Rule	Home Team Winning	Visiting Team Winning
Mitey-Mites	6 innings	No run rule	-	-
Minors	6 innings	12 runs	3-1/2 innings	4 innings
Majors	6 innings	12 runs	3-1/2 innings	4 innings

6 MISCELLANEOUS

- There are three (4) possible end results of a game:
 - The Official Game
 - A Suspended Game
 - The Cancelled Game
 - Tie game that has reached Official Game length. There are no ties for playoff games(See Suspended Game)
- An OFFICIAL GAME is a game that goes the official number of innings or reaches the time limit
- A SUSPENDED GAME can occur during playoffs and is one that is called due to unplayable conditions (i.e. darkness, weather lightning, etc.) after the required number of innings has been played, with the score tied. If the game is stopped in an incomplete inning it will revert back to the last completed inning. When this happens, the umpire declares the game suspended and the score book is rolled back to the last inning completed. If the score is tied, the game will be completed from the exact point of suspension, inning, count, and outs. If not tied, then the score speaks for itself. Any suspended game should be played on the next available day of both teams. Additionally, this game must be completed prior to starting a new game with the same opposing team.
- A CANCELLED GAME is one that has not been played to its required length, the game will be considered cancelled and restarted from the first inning upon rescheduling.
- Lightning:
 - During severe weather conditions such as high winds, heavy rain, etc., if the umpire does not call the game both managers agree it should be called, then both managers should confer with the umpire and request it be called.
 - The league director for that particular league may also step-in to halt the game.
 - When lightning is seen in the area, by an umpire, a manager, the assistant manager or any trustee the game must be suspended immediately. Game may only be re-started, after 30 minutes of time has passed from sight of the last lightning bolt. Upon the second occurrence of lightning, the game will be cancelled for the evening.

7 - PLAYING RULES

- The official playing rules, with the exception and variation contained in this book, shall be:
 - The “National Federation of High Schools” official baseball rules. The following divisions that will follow these are: Pony, Major, Minor, Mitey-Mite

- Mitey-Mites
 - Defensive Positioning:
 - Infield shifts are not allowed. Infielders must play in the standard zone of each infield position.
 - A maximum of six (6) infielders, including the pitcher and catcher will be allowed.
 - Position of infielders: SS/2b behind baseline. 1b and 3b may be one foot inside the base line or behind, not in the baseline.
 - The player/pitcher must stay within a 5- foot radius of the pitching rubber at the point when the ball is released by the manager to the batter. This applies when the coach is pitching (keeping one foot within the circle if applicable).
 - A maximum of four (4) outfielders will play in the outfield grass.
 - Batting:
 - The league will use a continuous batting order. See RULE 2-B, regarding tardy players.
 - Mitey-Mites will bat until either three (3) outs have occurred or a maximum of 5 runs are scored except the final inning which is unlimited.
 - A complete line-up will be given to the opposing manager before the game. The line-up will include the player's name, number and position. The line-up given to the opposing manager should also contain the names and numbers of eligible substitutes. All substitutes MUST be reported prior to entering the game.
 - Injured players do NOT take an automatic out if no other substitute players are available.
 - Re-entry of players:
 - There is re-entry in all divisions; as long as, RULE 2-B (Page 1) is not violated.
 - Throwing of the bat procedures are as follows:
 - A warning will be issued by the umpire to the team of the player that has thrown the bat (first violation). The next player to violate the rule after warning will be called out.
 - A thrown bat will result in the batter being given a warning. Upon a second warning during the game, the batter will be called out but allowed to remain in the game. Upon the batter being called out, the ball is considered a dead ball. Runners cannot advance. A third thrown bat offense (by a single player) during the game will result in that player's dismissal from that game, and considered an out for each subsequent at bat.
 - Batting Out-of-Order:
 - In such case, the improper batter will be replaced with the correct batter without penalty and he assumes the count of the improper batter. The improper batter will bat next in his proper turn. He will begin the next inning if making the last out of the previous inning.
 - No bunting. Balls hit within 6 feet of home plate will be considered a bunt and ruled dead ball. It is the umpire's consistent discretionary call when determining the ruling of a bunt.
 - A foul ball must rise above the batter's head to be considered an out when caught by the catcher.
 - Base-running:
 - Defensive Time Out Rule: Time outs are only granted by the umpire. A defensive infield player may call time out when they possess the ball in the infield.
 - Lead-offs and steals are not permitted.
 - All over-thrown balls are in play. In play is decided by field's ground rules, runners may advance at their own risk. If a defensive throw is attempted on a runner, the ball is ruled dead after the first throw, and no runners may advance any further than one base regardless of where the ball is thrown on any continuation throws.
 - No half-way lines between 1st-2nd, 2nd -3rd Runners advance at own risk. This is to advance at own risk. This is to

encourage defensive players to try and make a play on runners trying to advance. A base runner between these bases is considered live on carryover from a play even if “timeout” has been called by the umpire. If a defensive throw is attempted on a runner, the ball is ruled dead after the first throw, and no runners may advance any further than the one base they were going to regardless of where the ball is thrown.

- Example A:
A ball at first base is overthrown. The runner can advance to second base at his own risk. REGARDLESS of how many defensive throws are made the runner must stay at second base
- Example B:
If a runner is on first when the ball is hit and an errant throw is made to either first or second base, the lead baserunner may advance to 3rd base only. S/He does not get home.

■ Sliding:

- The league recommends that all base-runners slide to avoid violent contact; except for the initial play at first, when an imminent play is to occur at the base.
- SLIDE OR GIVE UP: All runners must slide or give-up if a play at the plate is attempted.
- Ultimately it will be the opinion of the umpire to judge the severity of the contact and choose to call the runner out and the possibility of an ejection.

○ Infield Fly Rule:

- The infield fly rule is not applied in this division.

○ General Pitching:

■ Pitcher's Inning Restrictions:

- The pitching week starts at 12:01am Monday morning and runs through Sunday at 12:00am.
- A delivery of a single pitch constitutes an inning pitched. This will not be waived for any subsequent innings pitched violation; i.e. it is discovered that a pitcher has already met his/her innings pitched in a game and that pitcher returns to the mound and pitches to a batter prior to discovery; this will count against innings pitched for the week.
- Tournament innings DO NOT count toward innings totals for the week.
- A pitcher must have 22 hours rest after he pitches.

- Balls and strikes will be called by the umpire behind the plate for the entire game (Includes Player and Coach pitch).

○ Player Pitch Innings:

- **Players will pitch from the start of the season**
- Pitching Sequence:

Inning 1	Inning 2	Inning 3	Inning 4	Inning 5	Inning 6
Player	Coach	Player	Player	Coach	Coach

Any applicable pitching rules as stated previously will apply. There will be a no walk rule unless a batter is hit by the pitch; see below:

- A player shall not pitch more than 1 inning per game and 2 innings per week.
- A player cannot pitch in consecutive calendar days
- 2 hit batters by the same player constitutes a pitching change

■ NO WALK RULE:

- At any point, the count reaches 3 balls, the batter's coach (usually the 3rd or 1st base coach) will pitch (NOT LOB) the ball to the batter.
- The PLAYER PITCHER MUST STAND WITHIN FIVE FEET on either side of the coach as the coach pitches. As soon as that batter is done the coach runs back to his position and the normal player pitcher then begins pitching to the next batter.
- When coaches come in to pitch there will be a five (5) PITCH MAXIMUM (including foul balls).

- Pitching coaches must pitch overhand NOT underhand.
- If the pitching coach throws a pitch that is not a strike it is simply called a no pitch and the count remains at three balls and the coach pitches again, there is no ball four and no walk. If the count is three balls and two strikes and the pitching coach throws a strike (swinging or called by the umpire) then the batter is out. If, after the 5th coach pitch, the batter has not hit the ball or has not been called out with 3 strikes the batter is automatically out.
- One foot of the pitching coach must be in the circle if applicable or within 5 feet of the pitching rubber.

■ Coach Pitch Innings:

- Maximum of seven (7) pitches per batter.
- Four (4) strikes will determine a strike-out.
- There are no bases on balls.
- If last pitch is fouled off the batter will receive another pitch
- All pitching is overhand and will approximate a player's pitch. NO lobs allowed.

Minors:

- Batting:
 - The league will use a continuous batting order. See RULE 2-B, regarding tardy players.

- Base-running:
 - Lead-offs are not permitted.
 - Stealing of second base by the batter on continuation from a walk is Not Allowed
 - Stealing is allowed after the ball has crossed home plate.
 - Stealing of home is permitted until the offensive team has an eight (8) run lead. A runner on third base can advance home after an eight (8) run lead as long as a defensive play is being attempted either to his base or another base.
 - Sliding:
 - The league recommends that all base-runners slide to avoid violent contact; except for the initial play at first, when an imminent play is to occur at the base.
 - SLIDE OR GIVE UP: All runners must slide or give-up if a play at the plate is attempted.
 - Ultimately it will be the opinion of the umpire to judge the severity of the contact and choose to call the runner out and the possibility of an ejection.
- Infield Fly Rule
 - Definition: An infield fly is a fair fly (not including a line drive or an attempted bunt) which can be caught by an infielder with ordinary effort, (rule does not preclude outfielders from being allowed to make the catch) and provided the hit is made before two are out and at a time when first and second or all bases are occupied.
 - The infield fly rule is not applied in the Minors division; but if in the umpire's judgment the ball is dropped intentionally, the play is dead and the batter will be considered out.
- Pitching:
 - Pitcher's Inning Restrictions:
 - The pitching week starts at 12:01am Monday morning and runs through Sunday at 12:00am.

- A delivery of a single pitch constitutes an inning pitched. - A pitcher will be removed and not able to pitch for the remainder of the game if the pitcher hits two (2) batters in one (1) inning or a total of three (3) in any game. He can be placed in any other defensive position.
- A pitcher will be removed from the game for a malicious act of hit batsman. This determination will be the sole discretion of an umpire.
- When the pitcher is in contact with the pitching rubber, the ball is dead. If no attempt to steal is made before the pitcher makes contact with the rubber, all base-runners must return to their base.
- With runners in stealing position (1st or 2nd base), the pitcher will pitch from the stretch. A warning will be issued by the umpire in case of an infraction; no other penalties will be given.
- No quick pitches are allowed; the pitcher must go to the proper progression and come to a set position, before delivering the pitch.
- Defensive Conferences:
 - Managers or coaches may visit the mound once per inning. The second trip to the mound in the same inning will constitute the removal of the pitcher for that half inning.

 - Batting:
 - The league will use a continuous batting order. See RULE 2-B, regarding tardy players.
 - A complete line-up will be given to the opposing manager before the game. The line-up will include the player's name, number and position. 13 – GENERAL INFORMATION

Thank You

- Thank you for volunteering so much of your time to give the youth of our community the benefit of your knowledge, leadership, and enthusiasm. The quality of life for our children is largely determined by the effort we parents are willing to provide. Your contribution is greatly appreciated by everyone in this organization. We are not here to produce major league ballplayers, or to win championships. This program is geared towards developing kids both physically and emotionally into healthy, responsible adults. The program's objectives and the conduct required to reach these objectives as described in the first section of these rules.

Umpires

- As participants they deserve the same respect and support you give your players. Many of them are holding their first job, and like players and managers, they will make mistakes. Poor performance and/or

attitude by umpires will be addressed. If you have a problem with an umpire, notify your commissioner and/or the Director of Umpires. If you or one of your coaches is ejected from a game you are automatically suspended for one game. You may appeal, but are suspended until the Board considers your appeal.
