### TWO WAYS TO MEASURE:

#### 1. MEASURE GEAR THAT FITS YOUR PLAYER WELL & CONVERT TO OUR CHART

– Take a compression tank top that fits the player well and measure across the width just under the armhole.....multiply by 2.

For length, measure from back of the collar to the bottom of the compression tank top.

Compare your measurements to our size chart and you'll have the size Compression Tank Top you need.

#### 2. MEASURE THE PLAYERS:

– For the Compression Tank Top, measure around your player's chest. Measure from top of the shoulders down to where you want the compression tank top to fall and that is your player's length.

Again, if both measurements point to 2 different sizes on the chart...go with the bigger size!
