

I am writing to submit my bio and express my interest in the open board positions within the association.

I am currently serving as the Termite Director and Head Coach for the U6 NTS program, where I focus on long-term player development, building a positive and inclusive culture, and growing a lifelong love for the game at the youngest level. I believe that strong culture and confidence are established early and should carry through a player's entire youth hockey experience. I have been deeply committed to the growth of the girls program, helping to establish two U6 girls teams, and I am dedicated to continuing to expand participation, development opportunities, and retention for girls within the association.

I also coach T-ball with the Cambridge Baseball Association, further supporting youth athletics in our community. In addition to my involvement in youth sports, I serve in the National Guard and am a member of the Dalbo Fire Department. These roles have strengthened my leadership, accountability, and service-driven mindset.

My first choice for a board position is Girls Director, where I hope to help build a strong, sustainable girls hockey pathway, though I am open to discussing and supporting other board openings as needed. Thank you for your time and consideration.

Sincerely,  
Nolan Miller
