

My name is Kasey Smith. I homeschool and stay home with my six children. I was born and raised in the Isanti community, and after my husband and I moved away for a few years, we are grateful to now be back raising our family here.

We currently have four children playing hockey within CIHA, with kids participating on both the CI and NTS sides of the association. Hockey has become a meaningful part of our family's life, and I have truly enjoyed getting involved and building relationships with so many wonderful families in our community.

Over the past several seasons, I have served in a variety of operational roles within the association. I have been the Mite Manager Coordinator for the last two seasons, managed each of my children's teams, assisted with summer recruitment efforts, and helped plan the Mite Madness Jamboree. Most recently, I have had the opportunity to serve in an interim position on the board.

Serving in these roles has strengthened my desire to give back to the association and its members. I care deeply about fostering a positive, unified, and supportive hockey community. I have a significant investment in this program—not only because of my current players, but because we have many hockey years ahead of us. I want to help ensure this association remains strong, inclusive, and something every family can feel proud to be part of.

I would be honored to represent our association members on the board and work to ensure their voices are heard.
