

PREP Injury Policy

Any player that exhibits signs, symptoms or behaviors consistent with a concussion (such as loss of consciousness, headache, dizziness, confusion or balance problems) shall be immediately removed from practice, game or PREP activity. The player shall not return to on-ice practice and games or participate in PREP activities until evaluated by and receiving written clearance to participate as no-contact or contact hockey from a licensed healthcare professional.

If a player receives an injury that requires medical attention or evaluation by a physician the player shall not return to on-ice practice and games or participate in PREP activities until written clearance to participate as no-contact or contact hockey from the attending physician is received. Written clearance provided to the team coach or hockey director will be on file with the PREP organization registrar.
