

## 2026 Team Selections Policy

- Team assignments will be based on evaluation scores, with the top 11–12 players (depending on roster availability) placed on the highest competitive team within their age division. Process will be repeated for each level. (AAA,AA,A,Rec)
- If a tie occurs in the final rankings, the Team Selection Committee reserves the authority to determine player placement.

### Injured or Ill Players Unable to Attend Tryouts

- Players who are injured or ill and unable to participate in evaluations must communicate this to the BHBA prior to the start of evaluations.
- All players are still required to register by the designated deadline, and the evaluation fee remains applicable.
- The Team Selection Committee\* will review each player's prior history within the BHBA, utilizing multiple evaluative inputs to determine the player's most appropriate ranking within their age-level pool.
- Players who are new to the BHBA and did not participate in the tryout will automatically be placed on the lowest-level team for their age group.

### Combining age Levels

- At certain times combining age levels is a must to complete rosters.
- The BHBA may place players on the lowest or higher team available at any age level based on need of players.

The BHBA is committed to providing opportunities for all players to participate and to be placed on a team that offers the best chance for their development and success. However, depending on age-group numbers and roster limitations, player cuts may occur.

Any disputes or discrepancies arising during the team selection process will be addressed on a case-by-case basis and resolved through the Team Selection Committee's review and/or majority vote. The decision of the BHBA Board is final.

\*Team Selection Committee will be composed of equal members of previous Hanover and Buffalo Baseball Board members.
