● Discussion re: **10u team**

- Alternate weekends and players. We have 17 players right now total, if we split the team into a 9u and 10u, we would ideally need 2 more players per team, which may be difficult to do. Suggestion to toss out a calendar towards families so they can see what will work for players
- Leave it up to families and let them decide which weekends they want to play - forcing families to sit out at least one.
- 9u team would face struggles if they play in the 10u division.
