Hi, my name is Brandon Herda, I am originally from North Dakota where I grew up around hockey. I attended the University of North Dakota and became a lifelong fan of the Fighting Sioux. My love for hockey grew even more when I married my wife Nicole who is from Manitoba Canada. We started our son in hockey when he was 4 years old and been an active hockey family ever since. We love the sport and hope to continue to support and grow hockey in Houston and the state of Texas. We have been a part of the Aeros for nearly 5 years now. I started 3 years ago as Registrar for the Aeros and Safety Coordinator. My goal is to continue to support the Aeros and ensure as now the Controller for my 2nd year, we grow our organization and ensure our players and families have the best hockey experience they can. My son also plays for The Woodlands High School varsity hockey program and the Aeros 16uAA Team. We believe hockey is a family activity. I previously was an Executive Director of a Nonprofit 501c3 organization for 5 years supporting member companies and reported to a 15-member Board of Directors. Recently, I retired from the oil and gas industry as a Vice President with over 20 years' experience in senior leadership roles. I would appreciate your vote of support! Go Aeros!

Brandon Herda
