- Championship games - a one-minute rest period will be followed by a seven-minute, 4-on-4 sudden-death overtime period, with teams and goalies switching ends (same as 2nd period).
- If still tied after overtime, a one-minute rest will precede a shootout.
    - Each team will select three shooters and alternate shots, with the home team shooting first. The team scoring the most goals after three rounds wins.
    - If still tied, teams will continue alternating with new shooters until a winner is determined, and all players must participate before any can shoot again.
        - Players serving penalties when overtime ends are ineligible for the shootout.
