Masters Degree in Business Communications from Northwestern University

Accepting new students of all ages and levels. Specialties include basic skills, freestyle, moves in the field, and sync as well as competition and test prep.

I have experienced figure skating from all different levels and many perspectives (skater, judge, coach, and also parent!) and it never ceases to excite and inspire me. Figure skating is a sport that accommodates all abilities, temperaments, and ages with a place in it for everyone to be successful. Helping skaters achieve their success is what coaching is all about for me.
