

Hi! My name is Allison. I started skating at 3 years old and continued for about 15 years. I was a part of the SCIS synchro program for about 13 years. I competed at Synchro Nationals 3 times as well as at many other competitions. I solo skated as well and competed until I was about 8 years old.

I earned a gold medal in ice dance and skating skills (moves in the field) and completed the pre-bronze singles level.

I have recently started coaching again after I completed college. I received a Bachelor of Science in Biology with a certificate in Global Health from UW Madison and am currently working as a Certified Nursing Assistant with plans to apply for Physician Assistant school.

Outside of work, I am excited to be skating more and to see how I can help other skaters as a coach. I enjoy seeing skaters grow and learn. In my free time, I enjoy spending time with my dog, family, and friends, playing games, and enjoying new hobbies.
