Frozen Summer Academy Tuition

I wanted to take a moment to explain the pricing for the 2027 Frozen Summer Academy.

For the past three years, we've kept our tuition unchanged, even as the cost of ice time has increased year after year. During that time, we've also continued to invest in the program by expanding our off-ice training with high-quality coaching and development opportunities designed to help our athletes improve in every aspect of hockey and life.

Increasing tuition is never a decision I take lightly, and we've worked hard to absorb these rising costs for as long as possible. Unfortunately, we've reached the point where a tuition adjustment is necessary to ensure we can continue delivering the level of training our families have come to expect.

We were faced with two options: increase tuition or reduce the amount of ice time. For us, the choice was clear. Maintaining the quality and quantity of our on-ice training was never something we were willing to compromise.

At the same time, Frozen Summer Academy is about much more than what happens on the ice. We have intentionally built a comprehensive development program that includes an incredibly unique off-ice training and instruction that goes well beyond what many summer hockey programs provide. We believe this complete approach is absolutely the biggest reason our athletes continue to see such remarkable results.

We understand that no one enjoys paying more, and we truly appreciate the trust you place in us. We don't take that responsibility for granted.

Our commitment has always been to provide an elite hockey development experience that delivers exceptional value. That commitment will not change. We will continue investing in our athletes, our coaches, and our program so every player has the opportunity to reach their true full potential.

Thank you for your continued support. We look forward to another outstanding summer at the Frozen Summer Academy!
