

HULL HOCKEY

2027 BODY POSITIONING, PUCK PROTECTION, & DECEPTION

BECOME A MORE SKILLED PHYSICALLY DOMINANT PLAYER ALL OVER THE ICE

★ UNDERRATED SKILLS

What do body positioning, puck protection and deception all have in common? They are all qualities of the best players in the world and are all underutilized and under-focused in modern day development.

★ MODERN DEVELOPMENT

Some of our most favorite things to teach are in this camp. We love giving players the tools they won't get anywhere else helping them become even harder to play against. With our unrivaled energy and modern multi-layered drills, they are sure to become *mean but clean!*

★ ENHANCED CREATIVITY

Creativity has become a highway for skill development due to the intense presence of social media among other things. A huge benefit of this camp is the amount of creativity that is Brought to light. Players thrive off of the allowance to be inventive.

★ USING OUR BODY TO OUR ADVANTAGE

Body positioning is so much more than body contact. So much of the game is won by winning battles, keeping the puck away from opponents, and figuring out ways to use our own body to gain an advantage over the opposing players. To be an effective player, your presence must be felt every time you are on the ice.

MASTER BEING MYSTERIOUS

Deception is the future of training. As the game becomes more and more skilled, deception is going to become a necessity for any high level hockey player. Players need to have options in their heads at all times, no matter the situation. Footwork, bodywork and puck work must be aligned, even at top speed.

TRANSFORMATIVE CONNECTION

Our staff has always been dedicated to helping our players from the get-go. None of our coaches are there to just collect a paycheck. They know what it takes to make a difference. Our staff is constantly growing and constantly improving. We guarantee you that the value we bring through teaching in a high energy and industrious culture will transform the way you think about coaching. We are setting the standard. We invest a lot into our coaches, and we just know you will see and feel the difference.
