

Pool Play Tie Breaker Rules

1. Record

2. Three-Team Tiebreaker

- a. Identify the top team among the three tied teams using a point differential (max 15) from ONLY games played between the tied teams.
- b. If inconclusive, use point differentials (max 15) from all games.
- c. If still inconclusive, use a (computer-generated) coin flip. After determining the top team, proceed to the Two-Team Tiebreaker with the remaining two tied teams.

3. **Two-Team Tiebreaker** (Head-to-Head): The team that defeated the other wins the tiebreaker.

Note: In a three-way tie, point differentials are used solely to determine the top team. Following that, a head-to-head tiebreaker will determine the ranking for the remaining tied teams, designating who is considered 2nd and 3rd among them.
