

I am honored to be nominated for the SPYHA board! I'm going to keep this short & sweet. I'm newer to hockey! My oldest, Brooke, started with SPYHA 4 years ago and is now in love with the sport as a 10u Monkey. I was inspired by her and started playing myself 3 years ago with the Saturday super beginner's group and have now been on the Ice Hawks women's team for the last 2 years.

While I don't have the years and years of coaching and playing that others may have, what I do have to offer is a fresh set of eyes and perspective. I've started dabbling in some of the fundraising efforts and would use my position on the board to take that to the next level - brainstorming new and creative ways to bring in additional funds for hockey at all levels. In addition, I'd also like to take our marketing and social media presence to the next level. Most importantly, I have ideas on helping with recruitment and removing barriers in order to participate in this great sport we all love. I'm sure I could list another 10 things on the wish list, but I said I'd keep this short and sweet.

As a full-time project manager in health insurance and also a small business owner (+ Mom of 3 littles – my most important job), I'm organized, driven, and motivated, and work well both individually and on a team. I can think big and strategic while also at a task/detailed level. I'm excited at the opportunity to help grow the sport for future years to come!
