

Although I feel the need to introduce myself, I believe a lot of you may know me one way or the other as I have been a Sauk Prairie resident my entire life. Some of you know and recognize me as I am coaching 8U and 6U this year. If not from coaching hockey, I may have coached your child in t-ball, flag football, soccer or travel baseball. Some of you know me in a business setting, as I own an insurance agency and may be your agent! Whether you know me or not, I do appreciate you taking the time to read about my visions for SPYHA.

My professional and financial expertise allowed me to double the size of an already very successful insurance agency I purchased in a time span of five years. I am highly motivated to analyze SPYHA's financial health for our strengths and weaknesses and identify opportunities for sustainable growth. Strategic financial planning is the only way we can pave the way to program expansion.

I am not new to being on a Board of Directors. In the last 5 years, I have been on the board for both the Black Earth Children's Museum as well as Professional Insurance Agents of WI. During my time on the Professional Insurance Agents of WI, I was elected Professional Insurance Agent of the Year for my integrity, ethical insurance practices and leadership skills.

I have been coaching sports year round for years. I would not only bring a financial strength to the board, but I volunteer these hours because I believe sports can have a positive impact on the lives of our youth long-term.

Thank you again for taking time out of your busy day to learn more about my goals for our association. If I have your vote, I promise to work hard in achieving these visions.

Mike Endres
