

My name is Kasey Miller and I am honored to have been nominated for the SPYHA

board! I have been around the world of hockey since I was a kid. I have never played myself but all 3 of my brothers played growing up and I have had children within the association since 2015. My daughter Langley currently plays for 10U Whitecaps and has been playing since she was 3. I also have a daughter, Kiernan, who plays 8U and a son, Kevan, playing his first year of 6U. Having my children in hockey has reignited my love for the sport and I am hoping to be able to play more myself next year with the women's team. While I did not play hockey myself, I have coached at SPYHA at the 6U and 8U level as well as have been the team manager at the 6U level. I think having been a parent, coach, and manager within this association will help me bring an all-inclusive perspective to the board having been in every role at some point. I also feel I can bring a well-rounded perspective to a position on the board having children playing for both the Flyers and the White Caps.

I am passionate about supporting youth hockey and helping our association grow in both participation and revenue as well as having a strong commitment to recruitment, retention and building a unified association culture. I believe our greatest strength comes from working together as one organization - players, families, coaches and volunteers. I bring a creative, forward-thinking approach to fundraising or revenue generation while also strengthening community engagement and pride in our program. I am especially interested in developing innovative fundraising opportunities and building partnerships with local businesses. Equally important to me is giving back - whether through supporting player development, enhancing family experiences or helping ensure hockey remains accessible and affordable for all members. I value collaboration, transparency, and service, and I am committed to working alongside fellow board members, volunteers and families to support the long-term success of our hockey association. Just as importantly, I am passionate about fostering collaboration across teams and age levels so that our association operates as one cohesive unit with shared values and goals.

Being someone who works in healthcare and has multiple children (and I coach volleyball at the high school), I am very well organized and motivated. I understand the balance from both a parenting and coach perspective and look forward to being able to bring my ideas forward to this association! It would be an honor to contribute my time, skills and creativity to help our organization thrive.
