SPYHA Families,

I'm asking for your vote to represent you as a board member of Sauk Prairie Youth Hockey Association. Hockey has played an important role in my life as I've participated as a player, parent of a player, as well as coaching positions that include Head Coach of the Badger Lightning High School Girls Co-op.

In my playing career, I was fortunate to have many great experiences through various levels of hockey that include the collegiate level. It has always been a personal goal to provide an even better experience for current and future hockey players. As a parent of a player, I understand the challenges and rewards that come with being a hockey parent. My coaching career has provided me with knowledge of hockey skills and activities utilized for all SPYHA programs to be successful to compete at current and future levels.

As a board member, I will represent association families based on personal experiences, feedback from association members, and continuous hockey development needs as the game continues to evolve. My belief is that the continued success of Sauk Prairie Youth Hockey Association needs to be measured by continuous improvement at all age levels for both boys' and girls' hockey programs.

The continued growth of hockey is dependent on the positive experiences we provide players and their families today and moving forward.

Best Regards,

Nate Breunig
