

My name is Amanda Chetwood, I have been involved with Sauk Prairie Youth Hockey for the past 13 years as a hockey mom, team manager, and volunteer. I have managed teams at every level from 6U through Bantam and have experienced the full player journey firsthand, including having a player progress from 6U through graduating while playing high school hockey in Sauk Prairie. All three of my children have played for the association

I am passionate about helping create a positive, respectful environment where families feel comfortable bringing questions or concerns to the board. I believe open communication, fairness, and trust are essential to a strong program, and I would be honored to continue supporting our players, families, and coaches in this role.
