

CHAPARRAL WOLVERINES HOCKEY

<https://wolverines-hockey.org>

Summer Skate Program Mondays and Thursdays June and July

Register TODAY!!

High school hockey players, or soon-to-be high school players, are invited to participate in the Annual Parker High School Summer Skate. This high-level program is split into two sessions: one designed to prepare players for high school varsity competition, and the other for current high school players and those who have advanced to college or juniors, focusing on skill development. Players will be grouped based on birth year and skill level.

Middle school players are welcome to join; however, we recommend reaching out to the coaches listed below to discuss skill level and ensure the player has a productive experience. Please note that this program is not a learn-to-play initiative. It is specifically designed to help players elevate their game in preparation for high school-level competition.

The program includes 16 hours of ice time at Family Sports Center on Mondays and Thursdays, running from June through the end of July. Each session will feature warm-ups, individual skills and drills, and scrimmages. All players will receive a jersey as part of the program fees.
