DEL SOL: Wake up every morning with this bright blend of light-roasted and medium-roasted coffees. Combining South and Central American coffees for satisfying sweetness, well pronounced acidity and a full, smooth body.

VELO: Velo is our version of the classic French Roast created just for you. Dark-roasted organic, Fair Trade coffees from Central America and Indonesia come together in this smoky, full-bodied blend with flavors of dark chocolate and licorice, rewarding those who want a little roast in their lives.

BLACK & TAN: A rich, full-bodied dark roast pairs with a sweet, clean light roast to create a smoky, bold, and balanced blend. Together, they deliver layered complexity and surprising harmony in every sip.

INDIGO: Indigo combines elements of coffee royalty: Ethiopia, the birthplace of coffee and Colombia, renowned for its exceptional quality. This blend highlights a blueberry note often found in natural processed coffees.

DECAF MEXICO KULAKTIK: This smooth, water-processed decaf comes from the municipality of Tenejapa in southern Chiapas. It features rich notes of molasses, baking chocolate, and plums —
