

Tim Steier

Position Nominated For: Vice President of Finance

Professional Experience:

Program Finance Manager for a Defense Contractor

Volunteer Experience:

Mite/8U Director, Mite Coach, High School Lacrosse Coach, STMA youth lacrosse coach

Why are you the best candidate?

With 18 years of program finance experience, including the last 8 years as a Program Finance Manager for a major Defense Contractor, and the past 17 years as a high school Lacrosse coach (yes, not hockey), I would bring a unique blend of high-stakes fiscal discipline and a deep-rooted passion for youth sports to the Board. As the parent of an upcoming last-year Mite, I've spent the past three seasons on the ice helping coach and stepped in this past year to volunteer as the Mite/8U Director. These roles have given me a firsthand look at our daily operations and a clear understanding of what our athletes and association needs to thrive and succeed. My professional career has trained me to manage complex multi-million dollar budgets, optimize resources, and ensure every dollar is tied to a strategic goal with total transparency. Parallel to this, my coaching background has shaped my belief that we can build a highly competitive environment while keeping the game incredibly fun. I am dedicated to a "player-first" approach, ensuring our financial decisions directly support the skills, development, and character of every child in the association at all ages and levels. I look forward to the opportunity to help our hockey community grow as a place where our athletes love to compete and are proud to play.

Personal Interests:

Coaching, projects around the house, cooking, spending time with the family, traveling, and the occasional round of golf.

Family & Player(s):

Married to Sheree who is a Kindergarten teacher in the STMA district, and son Austin who is a 2nd grader and will be a last year mite.

Anything Else You Wish to Share:

Beyond the spreadsheets and analysis, I view the budget as a tool to serve our players. My goal is to ensure fiscal responsibility translates directly into a better experience for every child at every level of the association, and the game remains fun, competitive, and high-quality for years to come.
