

Two Ways to Share Game Schedules with Family Members (not on the player's crossbar account)

Subscribe to the Game Calendar

- Go to the team page, then navigate to “schedule” and select the wifi icon 
- Select the family member's calendar you want to share in the family member drop-down
- Select the event type you want to share in the event type drop-down *can select games only or all events
- Copy the URL address that populates below the calendar type icons
- Email/text this URL to family members to add as a subscribed calendar in their favorite calendar app
 - Instructions for subscribing to a calendar are dependent on the specific calendar app

Bookmark the Game Schedule

- Go to the team page, then navigate to “Games”
- Share this webpage URL with family members
- Family members can bookmark or favorite the URL on a desktop or create an icon on their mobile phone home screen (similar to an app)
 - To save the page as an icon on a mobile device, navigate to the game schedule on the mobile device following instructions above.

Iphone

- Select the share icon
- Scroll to “add to home screen” in the share options menu
- Customize the name of the icon that will be saved to your home screen and select “add”

Android

- Tap the 3-dot menu icon
- Select “add to home screen”
- Customize the name of the icon that will be saved to your home screen and select “add”
