

SYHA Supervision & Rink Expectations

Hi SYHA families,

As we get deeper into the season, we want to send a quick reminder about supervision expectations at the rink to help keep all players safe and ensure smooth operations.

- **Children must be supervised at all times while at the rink.**
- **No players should ever be left unattended in locker rooms.**
- **If a child is waiting for a sibling's practice or game, they must remain with a parent or guardian.**
- **The rink and SYHA do not provide supervision or childcare.** If a child is not on the ice, a parent or guardian must be present.
- **On game days/nights, only players who have a scheduled game should be in the locker room hallway.** This is especially important during high school hockey when the area is very busy.

A quick reminder that **SYHA is a tenant of Kiwanis Ice Arena**, and there are often other rink users and activities happening during our practices and games. Please help us continue to be good partners by **respecting the facility, rink staff, and all other patrons.**

Additionally, please remind your players to **respect personal and rink property**—their own, their teammates', and anything belonging to the rink.

Any player found responsible for damaging or destroying property, including but not limited to the rink facilities, another player's equipment, or a coach's property, will face immediate suspension from all hockey-related activities. This suspension will remain in effect pending a thorough review and disciplinary committee hearing. Additionally, parents or guardians will be responsible for covering the costs of any damages or replacements resulting from their player's actions.

Thank you for helping us maintain a safe, respectful environment for all players and families. We appreciate your cooperation.
