Our Tumbleweeds Developmental Program is perfect for boys and girls Grade 3rd-8th who are looking to develop the necessary skills to one day enter club or prepare for school volleyball. Every player who signs up makes a team. Each player's skills will be evaluated before they are placed onto teams of similar abilities. Every team will have an assigned coach who will conduct practices to include all volleyball skills. Experience is not required to participate in this program. We will accommodate friend and teammate requests to the best of our abilities. Additional details will be discussed at the mandatory parent meeting on September 17th. The uniform package includes one practice-shirt, t-shirt jersey, spandex shorts, and a small backpack.
