

FREDERICK FREEZE HELMET DECAL GUIDELINES

The Frederick Freeze has established these helmet decal guidelines to create uniformity among all our players and teams. Please follow these guidelines when placing the league provided decals on the player's helmet.

Because of design variations among the different helmet brands, you may need to make minor adjustments to the placement of specific decals. If a modification to the placement is necessary because of the helmet design, please make the variance as minor as possible, if you need help in determining the placement, please ask your Coach, Team Manager or Equipment Manager for guidance.

Each player will receive two Freeze logos, a Freeze nameplate (Do not use nameplate on helmet, this for personal use for the player or parent), two sets of numbers and a USA Flag.

Please REMOVE ALL helmet decals from previous teams or old Freeze decals, use only the new decals provided. Ribbons for causes may remain on the players helmet as long as they do not conflict with the placement of the decals provided by Frederick Freeze.

When placing sticker, press down/or rub for 15 – 20 seconds to secure in position.

LOGO PLACEMENT:

A Freeze logo will be place on both sides of the helmet, centered at the top of the side portion of the helmet.

It is ok for the logo to wrap towards the top of the helmet, as this will occur on most helmets. You may need to shift slightly forward center or back center based on the design of the helmet, but try to place as close to side, top center as possible.

PLAYER NUMBERS PLACEMENT:

Two sets of numbers have been provided for the player to place on the front center and back center of the helmet. Because of helmet design variations, you made to place slightly higher on the front center or back center of the helmet, but try to place the numbers as far down on the front and back of the helmet as possible.

DO NOT place stickers on top certification stickers.

USA FLAG PLACEMENT:

The placement of the USA Flag should be lower back of helmet, left of center. Some helmet designs may require you to place the sticker further to the left or more center. DO NOT place USA Flag sticker over any helmet certification stickers.
