2020 – 2021 Season**

Arlington Hockey Club

COACHES INFORMATION GUIDE 2020 – 2021 SEASON

INTRODUCTION

Welcome to the Arlington Hockey Club! AHC is a non-profit organization that aims to offer a high quality, affordable opportunity for kids to play hockey. We strive to provide age- and skill-appropriate player development and coaching for all participants through our instructional, developmental, in-house, and travel programs.

By volunteering for coaching, you'll contribute to some of the club's most critical objectives—teaching kids the game of hockey, sportsmanship, responsibility, and other life skills. We greatly appreciate the time and commitment you're devoting to the program and want to help in any way we can to ensure your success and enjoyment in creating a safe and fun environment for your team.

This informational packet will help you get started as a coach in the AHC!

Given the Coronavirus pandemic this year, we've added an appendix to this handout to provide information that is specific to operations during the pandemic.

COACHING REQUIREMENTS

In order to coach amateur hockey a number of credentials are required at the local (AHC), state (MA Hockey), and national (USA Hockey) levels. These requirements include: completing a background check, registration with USA Hockey, SafeSport certification, coaching modules for your appropriate coaching level, and completion of a Coaching

Education Program (CEP) coaching class. In the following sections we provide instructions for completing all of these requirements.

Coaching certification is required for all coaches, and teams are not able to play in the MA State Tournament without certified coaches. For more information regarding USA hockey coaching requirements, see:

<https://www.usahockey.com/coachingcertification>

USA HOCKEY REGISTRATION

All coaches must be registered with USA hockey. This helps track coaching credentials and provides insurance for all participants in the hockey program.

Register at:

<https://membership.usahockey.com/register/age>

BACKGROUND CHECK

A background check must be completed for every coach in the program. USA Hockey is now conducting background checks across all registered coaches. You will need your USA Hockey registration number and photo ID to complete the background check, which can be found at:

<https://www.usahockey.com/backgroundscreen>

SAFE SPORT

SafeSport training is required by USA hockey for all coaches. The goal of this program is to provide information to help prevent abuse from occurring in hockey. You must first register and then complete the training. To register and begin the on-line training, please visit:

<https://www.usahockey.com/safesporttraining>

AHC Midget players who are 17 before Dec. 31 of the season they're playing in, must also take SafeSport training as a USA Hockey requirement. To complete the training takes approximately 90 minutes.

COACHING MODULES

Starting at the mite level of hockey, completion of a series of on-line coaching modules is part of the USA hockey certification and must be completed at the beginning of the season. Completing the modules can take 6 – 8 hours.

The requisite coaching modules can be found at:
<https://learning.usahockey.com>

CEP CLASS

USA hockey requires attendance of a coaching clinic for the hockey level you will be coaching.

Registration for the coaching clinics can be found at:
<https://www.usahockey.com/coachingclinics>

COACHING RESOURCES

Please register for an AHC account through the AHC web-site (www.arlingtonice.com) and login to familiarize yourself with the site and find your team. The web-site can be a great way to communicate with your team and parents. In addition, the AHC site is compatible with the Sports SignUp Play app, which is available for both iOS and Android phones through the associated app store. The app shows the schedule for games and practices and is another way to communicate with the team.

There are many coaching resources available to you through AHC, Massachusetts Hockey, USA Hockey, and other sources, which we encourage you to use as you find appropriate. Below are some resources that you may find helpful as you plan your season.

In addition to these resources, most equipment for practices and games are provided. All AHC coaches must have their own helmet to wear at all practices, as required by AHC, MA Hockey, and USA Hockey. Pucks, goals, and cones are provided at the rink, however, it's a good idea to bring your own whistle

and other materials you may need (e.g., ice marker, white board, stop watch, etc.).

AHC CONTACTS

Michael Raab, President, RMichaelRaab@gmail.com

Ken Simmons, Boys Inter City Travel Director,
KJSimJr@gmail.com

Douglas Mitchell, Girls Director, doxmit@yahoo.com

Jimmy Conway, Vice-President, In-house Director,
jconway4310@gmail.com

Bruce Newell, Registrar, COVID Safety Director,
ahfscregistrar@gmail.com

The AHC web-site has additional contact information and can be found at arlingtonice.com.

USA HOCKEY

USA hockey has a full assortment of coaching resources organized at:

<https://mobilecoach.usahockey.com/#home>

The web-site includes practice plans, drills, videos, an app., and some software to enable you to make your own plans.

ADDITIONAL TIPS FOR A SUCCESSFUL SEASON

TEAM

AHC aspires to provide a fun and safe hockey experience for players of all ages and skill levels, while teaching life lessons such as teamwork, sportsmanship, and responsibility. The coach plays a critical role in organizing and delivering this experience. While there are many resources for coaching at all levels, below are a few basic tips we think will be helpful for beginning coaches.

- Always be positive. Kids respond to the demeanor of the coach, so your positive attitude will be reflected by your players.
- Come to practices and games prepared. Communicate practice plans at least the day before practice so all coaches understand the plan going in to practice and have a chance to discuss any issues or suggestions prior.
- Be on-time, as it will set the tone for the team and make sure ice time isn't wasted.
- Don't be afraid to ask for help, feedback, or input if you need it.

PARENTS

Kids respond to the feedback and attitude of parents, so it's very important for parents to be positive and supportive of all players. Communicating this to parents at the beginning of the season can be helpful so that they begin the season with the right perspective and expectations.

AHC and all local rinks observe USA Hockey's no tolerance policy with regards to parents admonishing the referees, coaches or players. Parents agree to follow this policy at registration. If a parent is yelling negative comments or being disruptive, they can be asked to leave the rink for the rest of the day.

Introduce yourself to your team via email or phone, and hold a short, (pre-season) meeting for in-person

introductions and to set expectations for the season. Emphasize having fun, good sportsmanship, and safe and fair play. It is a good idea to provide a list of players' names, numbers, and their associated parents' names and contact information, so everyone knows the players and families on the team. If possible, it's also helpful to recruit a volunteer team manager to help coordinate some team responsibilities, schedules, and activities.

PRACTICES AND THE SEASON

Kids learn through fun, so try to employ various games as parts of practice and drills. Don't be discouraged if everyone isn't doing the drill correct all of the time—hockey practice with young kids is commonly chaotic.

To make the most of the ice time, come prepared and have some of the coaches get equipment together for the various drills and stations before, or at the beginning of, practice while the kids are warming up and skating.

- During practice, try to maximize participation in each drill --- minimize time in lines.
- Organize players according to ability so they have a challenge, are not bored, but also don't get discouraged.

In addition, as part of practices AHC provides skills sessions for all players in the travel hockey program. Coaches are encouraged to attend the skills sessions and incorporate some of the same drills into their practice sessions to reinforce the skills learned.

If you need help organizing practices, plans, or drills, please contact the appropriate program director, Player/ Coach Development committee (see below), or explore the USA Hockey resources detailed above.

COMMITTEES

AHC is assembling several committees to act as resources for the club and to enrich participation for all members of the club and community. Two committees of particular relevance to coaches and

teams will be the Player/ Coach Development Committee, and the Events Committee.

The Player/ Coach Development Committee has the goal of assisting coaches with age-appropriate development and practice plans, development monitoring programs, and to help ensure AHC is using modern training methods, e.g., as described in USA Hockey's ADM. Members of this committee will contact coaches in time, but if you need assistance or would like to discuss player or coach development or safety, this is a resource for the club.

The Events Committee aspires to enrich the AHC experience for players and their families through team, hockey, and community oriented events. Events organized by the committee are not required, but optional, with the aim of supplementing AHC's on-ice offering with additional activities. If you have a manager for your team, please have them reach out to the Events Committee to introduce themselves and see how the committee may help your team. Examples of events that the committee may help you organize are team building outings, attending a high school or college hockey game, or finding an additional tournament for your team to participate in. In most cases these activities need to be funded by the individual teams themselves, unless the committee notifies team's additional funding is available.

OTHER RESOURCES

A number of other resources are available through the club to coaches and/or players as described below.

Players that specialize in playing goalie, and are the primary goalie for their team at the squirt level or higher, are eligible for a \$500 season tuition. The club has equipment available for all goalies. The club also offers goalies the opportunity to participate in a specific goalie training program called Stop-It. Please put your goalies in touch with your program's Director for more information on how to get involved.

The USA Hockey Mobile Coach app and desktop software can be used by all AHC coaches and the full app features (available as an in-app purchase) is reimbursable through the club. The app has drills and can be used to share practices between coaches.

There is an equipment exchange on the AHC web-site. Players that are looking for equipment, or players that have equipment they no longer want, can post them on the site to facilitate equipment sharing. In the future we may organize an exchange within the club near the beginning of the season.

If desired, once the jerseys have been distributed, players can get their names printed on the back of their jerseys. Sports Etc. in Arlington does printing and it may be worthwhile to collect the jerseys and names to have them done together as a group, which will ensure a consistent font and style. Usually the individual players' families pay for this, and it's not required, but if there are issues with resources for it, please reach out to the AHC contacts listed above.

Club stickers for helmets, sticks, skates, etc. can be obtained through the Stick Bandits web-site. Younger players in particular often like stickers for their helmets and sticks.

APPENDIX: CORONAVIRUS PANDEMIC

Because of the on-going coronavirus pandemic in 2020, there is a lot of uncertainty about how the season will unfold and proceed into 2021. As such, participating coaches, teams, and families will have to be flexible as circumstances change.

Safety is AHC's first priority and as a club we will follow all State, local, and rink policies and restrictions, on top of observing requirements and constraints imposed by USA and MA Hockey. AHC's COVID Safety Director is Bruce Newell, ahfscregistrar@gmail.com

Each team must have its own COVID safety officer, who must be registered with USA Hockey. This person can be a coach, manager, or parent and will be the team's point of contact for AHC's COVID Safety Director. The COVID officer's responsibility is to take attendance at each team event (including practices and games), keep a record of each coach's player's temperature prior to their going on the ice, and keep a record of their responses as to whether they feel healthy or have any COVID symptoms before going on the ice. A simple record sheet is attached to the end of this document.

In order to help decrease the risk of spreading the virus we're asking that:

- IF ANYONE HAS A POSITIVE CORONAVIRUS TEST, PLEASE IMMEDIATELY CONTACT THE AHC'S COVID SAFETY DIRECTOR: Bruce Newell (ahfscregistrar@gmail.com)
 - AHC participants, players, or coaches who test positive for COVID-19 may not return to the program until compliance is achieved with State and CDC guidelines
 - Everyone on the player's team needs to be tested for COVID-19 if a teammate tests positive
- If for any reason a player does not want to participate in a practice or game, they do not need to do so and they should know that there will be no penalties for missing practice/ games
- If you, or any players, are not feeling well or have an elevated temperature, ****DO NOT COME TO HOCKEY****
- All coaches and players must be free of COVID symptoms for the past 14 days and have not

been exposed to someone who has been ill in the last 14 days

- Coaches and players check their temperatures at home prior to coming to the rink and provide the temperature to the team's COVID Officer; if your temperature is ≥ 100.4 °F, DO NOT COME TO THE RINK and notify your COVID Officer
- Players bring their own individually labeled water bottles, which will not be shared among players
- Players wear masks to the rink and whenever they cannot social distance
- **Coaches need to wear masks the entire time**
- Players come dressed in their equipment, warmed up, ready to put on their skates and helmet and get on the ice
- Players need to follow the locker room assignments to help isolate from other teams and groups of players
- Parents of Squirt, U10, Peewee, U12, Bantam, U14, and Midget players drop off and pick-up without entering the rink
 - If necessary, when a player needs help, one parent can enter the rink per player
- Club will be providing electric whistles and facemasks for coaches; until they arrive, please do your best with a personal facemask and whistle

At this time, based on the most recent guidance from the Commonwealth of Massachusetts, the current rules for the 2020 hockey season in MA include:

- Rinks will be limited to 25 players at a time, and a limited number of coaches
- No checking in games at any level
- Fast whistle if there's a scrum or sustained battle for the puck; minimize contact between players
- Players conducting a faceoff during games must wear masks; NO FACEOFFS AT AHC PRACTICES
- Coaches and players on the bench must wear a mask and socially distance
- No handshakes fistbumps, hugs, elbow bumps
- One-way traffic through rinks; only one parent can enter per player, but likely cannot stay given the limitations on numbers of people in the rink
- Limited locker room use (10 people per locker room)
- Practice proper hygiene at the rink (wash hands frequently, use hand sanitizer, etc.)
