## Home and Away Games Commissioners Note

In some divisions a cross division game will need to be played. We would first like to allow teams the opportunity to work out this game themselves and determine home or away status. If an agreement cannot be made between the two teams the team leading in points will become the home team. If an agreement cannot be made teams will reach out to commissioners and the point leader will be confirmed and appointed by the commissioners based on the information available after the completion of the $2^{\text {nd }}$ game by both teams. Formulas used will be the same as BNC.
